In reply to your letter dated December 3, 1991, Attachment A, Westlake Landfill Information request, I respectfully submit my answers to the questions as outlined.

1. My employer, B & K Construction Co., Inc. entered into a contract with Cotter Corporation of Golden, Colorado to remove certain materials from a location on Latty Avenue in St. Louis County, Missouri and ship by rail, these materials, to Golden, Colorado. Our company was to furnish labor only, the equipment and materials were the property of Cotter Corporation. Mr. David Marcott, Vice-President of Cotter Corp. was our contact with Cotter. After shipping all material to Colorado Mr. Marcott had us remove the existin top soil to a depth of 1 to 3 feet. This top soil was hauled to WestLake by truck and used for cover over garbage, etc. This operation was monitored by a St. Louis environmental firm under contract with Cotter Corp. I negotiated all contracts and details on this job. My superintendent was Mr. Charles Brokaw who left our employ shortly after this job was completed.

- a.) I do not remember.
- b.) I do not know.
- c.) I do not remember
- d.) All top soil that went to Westlake was hauled by truck.
- d.) I do not know the trucking contractor.

3. I have no files, copies, or documents that are available. I left B & K Construction Co. in July of 1984 when the company went out of business.

4. Charles Brokaw may have some recall about the handling of the top soil, other than he, possibly Cotter Corporation or Westlake Quarry.

5. I have no information at all.

6. I know nothing of the quarry or the landfill operation.

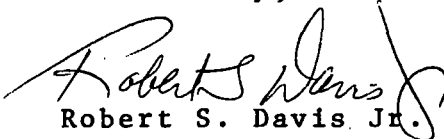

7. I have no idea how this work is done.

8. No

9. I do not know of any acts or omissions of anyone.

10. To my knowledge there are no longer any records of this job. As stated previously B & K went out of business in mid 1984. I don't recall the dates this work took place but I believe in the very early 70's.

Yours truly,

Robert S. Davis, Jr.
